AJA KONA, Io XT, Io Express, T-TAP Release Notes Windows Driver v10.4.1

Drivers for KONA, Io XT, Io Express and T-TAP™ Windows products

General

This software provides an interface between the operating system and AJA hardware. Installation of this software is required for use of AJA hardware with supported software applications.

Note: Additional software may be required for functionality with certain applications. Check with your software provider for details.

Requirements and Recommendations

- Operating System Required: Windows 7 or Windows 8 (64-bit).
- Before running this installer, uninstall all previous versions of AJA XENA or AJA Windows software.
- For additional hardware recommendations and requirements, please see the links below:

    http://www.aja.com/en/support/kona-pc-system-configuration/

    http://www.aja.com/en/support/kona-system-configuration/

- AJA recommends running this installer as an Administrator. To do this, right click on the installer and select 'Run As Administrator'. The 'Run As Administrator' option may not be present if Windows User Account Control (UAC) is turned off.
