

AJA 3GM Mini-Converter Release Notes—v1.5

3G/1.5G HD-SDI Multiplexer

General

A firmware update is available for the AJA 3GM Mini-Converter, supporting additional new frame rates. New 3GM Mini-Converters with serial number **K011525** and higher will be factory-installed with updated firmware.

Existing 3GM firmware cannot be field updated. A paid upgrade program is available for existing 3GM owners. Please contact AJA Technical Support for details on this upgrade program.

Improvements

This new firmware includes the following improvements:

- 1080p 47.95/48 support added
- 2K x 1080p 47.95/48/50/59.94/60 support added
