AJA eMini-Setup QuickStart Guide for HELO and Mini-Connect products

General

AJA eMini-Setup is the easiest way to set up your HELO streaming and recording device or AJA ethernet equipped Mini-Converter to work on the network .

Available for Windows and macOS, AJA eMIni-Setup also allows for easy firmware updating over the USB Config port using a supplied USB cable.

Applicable Products

- HELO: https://www.aja.com/products/helo

- Mini-Connect: https://www.aja.com/products/mini-converters/mini-connect

Installing and working with AJA eMini-Setup

Step 1:

- Acquire eMini-Setup from the AJA website:

    - https://www.aja.com/family/software#eminisetup

Step 2:

- Install eMini-Setup:

    - Unzip the Installer

    - Run the .dmg file on macOS or the .msi file on Windows

Step 3:

- Connect Power to your AJA Ethernet equipped Converter

Step 4:

- Connect the USB Config USB cable to the Computer running eMini-Setup

Step 5:

- Open eMini-Setup and Configure the device's network settings

Note: DHCP will be enabled by default, and if the device is connected to a DHCP server the IP address field will populate

Step 6:

- Type in (or Copy/Paste) the IP address into a Browser Window.
  There is also an "Open Web Page" button in the UI that will open the HELO GUI in a browser window

Step 7:

- Use the Web GUI to fully configure, control and use your AJA Device

Additional Information

For additional information, please refer to the software section of the AJA website:
