

List of AJA supported PCIe cards:

*KONA 5, KONA 4, KONA IP, KONA HDMI, KONA 1 and KONA LHi*

List of AJA supported Thunderbolt devices:

*Io 4K Plus, Io 4K*

NOTES:

- Any slot will work with an 8-lane card, but with slots 5,6,7 preferred.
- If using an Apple After Burner card that must be placed in slot 5 (since it is a 16-lane card).
- AJA KONA LHi is physically accommodated by the new Mac Pro in slots 3, 4 and 5. However when running with an Afterburner card in slot 5, you will need to utilize slots 3 or 4. In the event that those slots are utilized for a third party graphics card in combination with an Afterburner card, this will preclude the use of KONA LHi.

*Special Note for ordering KONA 5 for use with Mac Pro 2019:*

*There are two choices:*

- PN KONA-5-R0 uses ATX power, and so can be used in other relevant Mac or PC host systems. However, a 3rd party ATX cable kit for the Mac Pro 2019 will be required: <https://www.apple.com/shop/product/HMUJ2ZM/A/belkin-aux-power-cable-kit-for-mac-pro>.
- PN: KONA-5-R0-S01 will use PCIe slot power in Mac Pro 2019, but this KONA model should not be used in any other Mac or PC host system.

*\*4-lane PCIe slots can support the following AJA cards: KONA 1*

*\*\*8-lane or 16-lane Computer PCIe slots can support the following AJA cards: KONA 5, KONA 4, KONA IP, KONA HDMI*
