

# AJA Mini-Config Release Notes - v2.14.1

## Control Software for AJA Mini-Converters

### General

---

This version of MiniConfig provides fixes for two minor bugs in the HA5-4K and LUT-Box. Users of AJA Mini-Converters other than those listed above will not gain new functionality with this version of MiniConfig, however it is recommended to migrate to the most recent version even when using non-updated Mini-Converters.

### Improvements

---

#### HA5-4K

- Fixes a two line shift when operating at the following HDMI input formats:
  - 4K/UltraHD
    - (4K) 4096x2160p 50, 59.94, 60 (4:4:4/4:2:2)
    - (UltraHD) 3840x2160p 50, 59.94, 60 (4:4:4/4:2:2)

#### LUT-Box

- Fixes the default setting for the “LUT In/Out Color Range” to Full rather than SMPTE.

### Installing the Latest Software

---

Mini-Converters come from the factory with the most current version of firmware pre-installed. To get the latest version of Mini-Config, visit the AJA website support area and select your Mini-Converter from the list:

<https://www.aja.com/category/mini-converters#support>

The Mini-Config software can be found in the Software section of the support page for your Mini-Converter. Previous releases of the AJA Mini-Config software are also available in the Software Archive section for each supported Mini-Converter.

## Firmware Upgrade Procedure

---

The manual provided with your AJA Mini-Converter describes the firmware update process; please refer to it in order to properly update your firmware. The product manuals are also installed with the software in the /AJA/Mini-Config/Documentation/ folder.

Individual product manuals are available online for download from the Mini-Converter section of the AJA website:

<http://www.aja.com/support>

## Products Supported In This Release

---
