

AJA eMini-Setup for Windows Release Notes - v1.0

Windows Control Software for AJA eMini Converters

General

This application is a simple utility for configuring the Network settings on the AJA Mini-Connect product. eMini-Setup is used to configure network settings for easy use.

Notes

AJA Products Supported by eMini-Setup

- Mini-Connect

Known issues:

Sometimes in Windows 7, eMini-Setup will not reconnect immediately once changes are made. If this is an issue press F5 to refresh the application window.

If your ROI device is not seen by Mini-Connect try reconnecting the USB cable that connects it to your ROI converter.

Installing the Latest Software

eMini-Setup software can be found in the Software section of the support page for your Mini-Connect or from the Software section on www.aja.com:

<https://www.aja.com/en/family/software>

Additional Information

For additional information, please refer to the Mini-Connect Section of the AJA website:

<https://www.aja.com/en/products/mini-converters/mini-connect>

Firmware Upgrade Procedure

The manual provided with your AJA Mini-Connect describes the firmware update process; please refer to it in order to properly update your firmware. The product manuals are also installed with the software in the /AJA/eMini-Setup/Documentation/ folder.

Individual product manuals are available online for download from the Mini-Converter section of the AJA website:

<http://www.aja.com/support>

Products Supported In This Release
