

Ki Pro Ultra Release Notes – v1.1

Firmware update for Ki Pro Ultra

Introduction

This firmware update is a maintenance release for Ki Pro Ultra. Be sure to consult the Installation and Operation Guide (user manual) for detailed information about features and configuration guidelines. The most current documentation can always be found in the Support section of www.aja.com.

New Features

- HDMI v2.0 compatible input up to 4K 60p 4:2:0 YCbCr.
- HDMI v2.0 compatible output up to 4K 60p 4:2:0 YCbCr.

Improvements

- Audio Channels now displayed in Clip List on WebUI.
- Delete File Progress Text correctly aligned on Front Panel LCD Display.
- Improved layout for WebUI firmware Update Page.
- Factory Reset updated to include Config -> 1.3 Progressive Playback.
- Status Button Behavior updates.
- Front Panel UI Rotary Knob Press and hold adjusted to reset parameter to default.
- Headphone Jack noise removed when switching from Play to Record and visa-versa.
- Other minor fixes.

Firmware Update Considerations

- AJA recommends a Factory Reset under the CONFIG menu prior to updating firmware.
- After a firmware update, the web browser (Safari, Firefox, etc.) may lose its connection. A refresh of the web browser will reconnect the web UI.
- Do not attempt firmware updates while recording is in progress. Be sure the device is in the stopped state before performing a firmware update.
