AJA eMini-Setup for Mac Release Notes - v1.1

Mac Control Software for AJA eMini Converters

General

This application is a simple utility for configuring the network settings on the AJA Mini-Connect, HELO and IPR-1G-HDMI.

Notes

Additional AJA Products Supported by eMini-Setup

- HELO
- IPR-1G-HDMI

New Features:

- "Open Web Page" button on network tabs opens default browser pointed to selected AJA device's internal web server

Improvements:

- Fixed cut and copy issues for many controls, such as IP Address.
- Hot plug detection of devices improved on mac OS 10.11 (El Capitan) and 10.12 (Sierra)
- Cancelling updates after uploading firmware works now.
- Resolved an issue when Mini-Config and eMini-Setup were both installed on Mac

Known issues:

- When user authentication is disabled using eMini-Setup, open login pages will not redirect automatically. On Mini-Connect, click the "Login" button with no password. On HELO and IPR-1G-HDMI, point the browser at the device's IP address to get back in.

- During install on Windows 7, if the PC may search Windows Update for a driver for a long time (10 minutes) before completing successfully. To avoid this, run Windows Update before installing eMini-Setup.

Installing the Latest Software

eMini-Setup software can be found in the Software section of the support page for your Mini-Connect or from the Software section on www.aja.com:

https://www.aja.com/family/software#eminisetup

Firmware Upgrade Procedure

The manual provided with your AJA Mini-Connect, HELO or IPR-1G-HDMI describes the firmware update process; please refer to it in order to properly update your firmware. The product manuals are also installed with the software in the /AJA/eMini-Setup/Documentation/ folder.

Individual product manuals are available online for download from the Mini-Converter section of the AJA website:

http://www.aja.com/support

Products Supported In This Release

- Mini-Connect
- HELO
- IPR-1G-HDMI
