

# AJA Mini-Connect Firmware Release Notes - v1.2.0

## Firmware for AJA Mini-Connect

### General v1.2.0

---

The AJA Mini-Connect device enables control of up to 4 USB-enabled AJA Mini-Converters over a single Ethernet connection. Mini-Connect integrates with your existing Ethernet network to provide access using any web browser for easy configuration and control of Mini-Converters anywhere in your facility.

This version of Mini-Connect supports recent firmware versions of ROI, ROI-DVI, ROI-HDMI, and ROI-DP as noted below.

### Updates

---

- The v1.2.0 Mini-Connect Firmware now recognizes all released firmware versions for ROI, ROI-DVI, ROI-HDMI, and ROI-DP supported through Mini-Config releases v2.21.2. This includes:
  - ROI           all firmware versions up to and including v2.5
  - ROI-DVI       all firmware versions up to and including v1.3
  - ROI-HDMI     all firmware versions up to and including v1.3
  - ROI-DP        all firmware versions up to and including v1.4
- If Mini-Connect does not recognize a ROI, ROI-DVI, ROI-HDMI, or ROI-DP Mini-Converter, update the Mini-Connect firmware to v1.2.0, power cycle, and see if the problem is resolved.
- Note: Mini-Connect v1.2.0 does not provide access to the latest ROI feature for controlling Auto Bypass Mode.

### Installing the Latest Software

---

Mini-Connect software can be found in the Software section of the support page for Mini-Connect:

<https://www.aja.com/products/mini-converters/mini-connect#support>

eMini-Setup software for configuration of your Mini-Connect can be found at:

<https://www.aja.com/en/family/software>

## Firmware Upgrade Procedure

---

Mini-Connect has a built-in webserver that supports firmware updates. The AJA Mini-Connect manual describes the firmware update process; please refer to it in order to properly update your firmware.

The product manual is installed with the software in the /AJA/Mini Connect/Documentation folder.

The product manual is also available online for download from the AJA website:
