

FR1

FR1 is a 1RU frame with slots for four R-Series cards. The frame features high-capacity power supplies with no power restrictions for any module combination. FR1 features multi-fan forced-air cooling, which provides ample cooling capacity without the need for an empty rack space above the units. An optional redundant power supply is available. FR1 also features a frame color black reference input that is distributed to all slots.

\$790 US MSRP
